

UAT and Validation Plan

Status: Concept / MVP design | Domain: Community technology and diaspora services | Role: Founder and Product Business Analyst

Approach

Scenarios come from the acceptance criteria. Defects are logged with reproduction steps, fixed and retested before closure. Scenarios are defined to validate the MVP; none have been run.

Test scenarios

Test	Req.	Given	When	Then	Status
UAT-01	BR-01	a user selects London and food interests	recommendations load	only London food groups appear	Planned
UAT-02	BR-02	a group without approval	its page is viewed	no badge appears and guidance shows	Planned
UAT-03	BR-03	a user switches to city-level	they save settings	no precise location is stored	Planned
UAT-04	BR-04	a group with a published event	a member taps the event	IndulgeTix checkout opens	Planned
UAT-05	BR-05	a report is decided	the record is opened	decision, owner and appeal route are present	Planned

Exit criteria

- All Must scenarios pass
- High-severity defects fixed or formally accepted
- Business owner confirms the outcome
- Known limitations and follow-up actions recorded
