

Business Requirements Document

Status: In development | Domain: Tax technology and financial services | Role: Founder and Product Business Analyst

Business problem

Individuals, freelancers and small businesses struggle to identify the right tax route, calculate liability correctly and track filing through to certificate.

Objectives

ID	Objective
OBJ-01	Classify taxpayer and entity type correctly
OBJ-02	Explain calculations and the evidence behind them
OBJ-03	Keep tax rules versioned and current
OBJ-04	Track File, Pay, Confirm and Certificate
OBJ-05	Protect taxpayers through data security and a human review route

Scope

In scope	Out of scope
Taxpayer classification Income and evidence capture Rule-based calculation and explanation Human review route Filing progress tracking	Formal tax advice Direct submission where no authority integration exists

Business requirements

ID	Requirement	Priority	Objective	Acceptance criterion
BR-01	Identify taxpayer or entity type	Must	OBJ-01	Validated answers route the user to the correct journey
BR-02	Distinguish business-name (BN) and incorporated-company (RC) routes	Must	OBJ-01	The relevant state or federal journey appears
BR-03	Capture income, deductions and evidence status	Must	OBJ-02	Required values and evidence flags are retained
BR-04	Show the rules and values applied in each result	Must	OBJ-02	An itemised explanation is available for review
BR-05	Version rules by effective date	Must	OBJ-03	Each result records the active rule version
BR-06	Track File, Pay, Confirm and Certificate stages	Should	OBJ-04	Current stage and next action are visible
BR-07	Sensitive data is access controlled	Must	OBJ-05	Unauthorised access is rejected and access events are logged
BR-08	Uncertain or complex cases have an escalation route	Must	OBJ-05	User receives a clear referral or review option
BR-09	Guidance content is editable without code deployment	Should	OBJ-03	Authorised editor updates and publishes controlled content

Assumptions and constraints

Assumptions	Constraints
Tax professionals validate rule tables before release Users can upload income evidence	Tax rules change by effective date State and federal routes differ for BN and RC entities

Key risks

ID	Risk	Severity	Response	Owner
R-01	Rules change after implementation	High	Versioned tables with effective dates	Product owner
R-02	Estimate treated as professional advice	High	Clear scope statement and review route	Product owner
R-03	Incorrect classification	High	Confirmation questions and review	Business analyst
R-04	Sensitive data exposure	High	Least privilege and encryption	Engineering lead
