

Communications Plan

Status: In development | Domain: Tax technology and financial services | Role: Founder and Product Business Analyst

Approach

Communication is tied to each audience, its decisions and its moments of need, rather than one generic update for everyone.

Communications plan

Audience	Information	Channel	Cadence or trigger
Individuals and PAYE users	Route, liability, next step	In-app guidance	Each session
Freelancers	Deductions, evidence	Guided journey	Each session
Business owners	BN or RC obligations	Guided journey and checklist	Each filing period
Tax professionals	Rule tables, edge cases	Rule review workshop	Before each rule release
Engineering and content	Decision tables, acceptance criteria	Backlog refinement in Jira	Each sprint

Decision controls

- Record the decision, owner and date
- State the evidence or constraint considered
- Show the impact on requirements, process or release
- Escalate unresolved high-impact items
