

UAT and Validation Plan

Status: In development | Domain: Tax technology and financial services | Role: Founder and Product Business Analyst

Approach

Scenarios come from the acceptance criteria. Defects are logged with reproduction steps, fixed and retested before closure. Scenarios are defined for the pilot and will be run before release.

Test scenarios

Test	Req.	Given	When	Then	Status
UAT-01	BR-01	a user with salary and freelance income	they complete the questionnaire	they are asked to confirm their primary route	Planned
