

Stakeholder Engagement Plan

Status: Delivered | Domain: Retail and e-commerce | Role: IT Project Manager, E-commerce and Digital Systems

Engagement objective

Build shared understanding, surface constraints early and keep decision ownership clear throughout delivery.

Stakeholder analysis

Stakeholder	Influence	Interest	Primary interest	Approach
Business owner	High	High	Commercial value, cost and risk	Manage closely
Customer-service team	Medium	High	Usability and workload	Keep informed
Developers	High	High	Feasible, testable scope	Manage closely
Creatives	Medium	Medium	Brand and content dependencies	Monitor
Customers	Low	High	Clear, reliable journey	Keep informed

Engagement methods

Stakeholder	What they need to know	Method
Business owner	Milestones, options, decisions, benefits	Decision-focused review
Customer-service team	Process changes, escalation routes	Demonstration and feedback session
Developers	Workflows, data, acceptance criteria	Requirements walkthrough and backlog
Creatives	Priorities, asset deadlines	Visual brief and checkpoint
Customers	Product, order and support information	Usability checks and feedback

Principles

- Tailor detail to the audience
- Record decisions and open questions with an owner
- Use visual models to test understanding
- Invite feedback before implementation decisions are fixed
