

Business Requirements Document

Status: Delivered across client engagements | Domain: E-commerce, events and digital services | Role: Founder and Lead Business Analyst

Business problem

Disconnected forms, spreadsheets and email exchanges caused duplicate entry, unclear ownership, inconsistent hand-offs and limited status visibility for client events.

Objectives

ID	Objective
OBJ-01	Create one central operational record
OBJ-02	Automate repeat communications
OBJ-03	Make ownership and exceptions visible
OBJ-04	Select tools proportionate to client capacity

Scope

In scope	Out of scope
Registration and vendor intake forms Airtable records Make and Zapier workflows Email templates Exception handling	Custom software development Payment processing changes

Business requirements

ID	Requirement	Priority	Objective	Acceptance criterion
BR-01	Submissions create one central record	Must	OBJ-01	No manual re-entry; each submission has a unique ID
BR-02	Approved decisions trigger consistent communication	Must	OBJ-02	Message is sent and record status updates together
BR-03	Ownership and status are visible for every record	Must	OBJ-03	Every active record has an owner and a state
BR-04	Failed automations are visible and recoverable	Should	OBJ-03	Failures enter an exception queue with a reason
BR-05	Solution option matches client operating capacity	Should	OBJ-04	Option assessment records cost, feasibility and admin effort

Assumptions and constraints

Assumptions	Constraints
Client teams can maintain Airtable after handover Email templates are approved by the client lead	Small client budgets Mixed technical confidence in client teams

Key risks

ID	Risk	Severity	Response	Owner
R-01	Duplicate records	High	Unique IDs and duplicate flags	Business analyst
R-02	Automation sends the wrong message	High	Trigger tests and approved templates	Business analyst
R-03	Client cannot maintain the solution	Medium	Options assessment and handover guide	Client lead
R-04	Failures go unnoticed	High	Exception queue and ageing highlight	Operations lead
