

MoSCoW Prioritisation

Status: Delivered across client engagements | Domain: E-commerce, events and digital services | Role: Founder and Lead Business Analyst

Prioritisation basis

Priority reflects business criticality, user impact, risk and the minimum viable service. Could and Won't items are recorded so the scope conversation is visible.

Prioritised scope

Priority	ID	Item	Rationale
Must	BR-01	Submissions create one central record	Needed for create one central operational record
Must	BR-02	Approved decisions trigger consistent communication	Needed for automate repeat communications
Must	BR-03	Ownership and status are visible for every record	Needed for make ownership and exceptions visible
Should	BR-04	Failed automations are visible and recoverable	Needed for make ownership and exceptions visible
Should	BR-05	Solution option matches client operating capacity	Needed for select tools proportionate to client capacity
Could	Backlog	SMS reminders for attendees	Adds cost per message
Won't (this phase)	Backlog	Bespoke web application	Disproportionate to client capacity

Review rule

Reassess priority when scope, risk, dependency or evidence changes.
