

DELIVERED WORK

Creatrix Empire Marketing Operations and Performance Analysis

A multidisciplinary campaign workflow connected creative delivery with performance evidence

Status: Delivered

Domain: Digital marketing, media and entertainment

Role: Digital Marketing Analyst and Delivery Lead

The problem and what discovery found

Business problem

Client and internal-brand campaigns needed clearer specialist ownership, cleaner hand-offs and optimisation based on consistent evidence rather than reach alone.

What the analysis found

1

Specialists could work in isolation from campaign objectives

2

Late assets and unclear approvals created rework

3

Reach, engagement, traffic and conversion were interpreted inconsistently

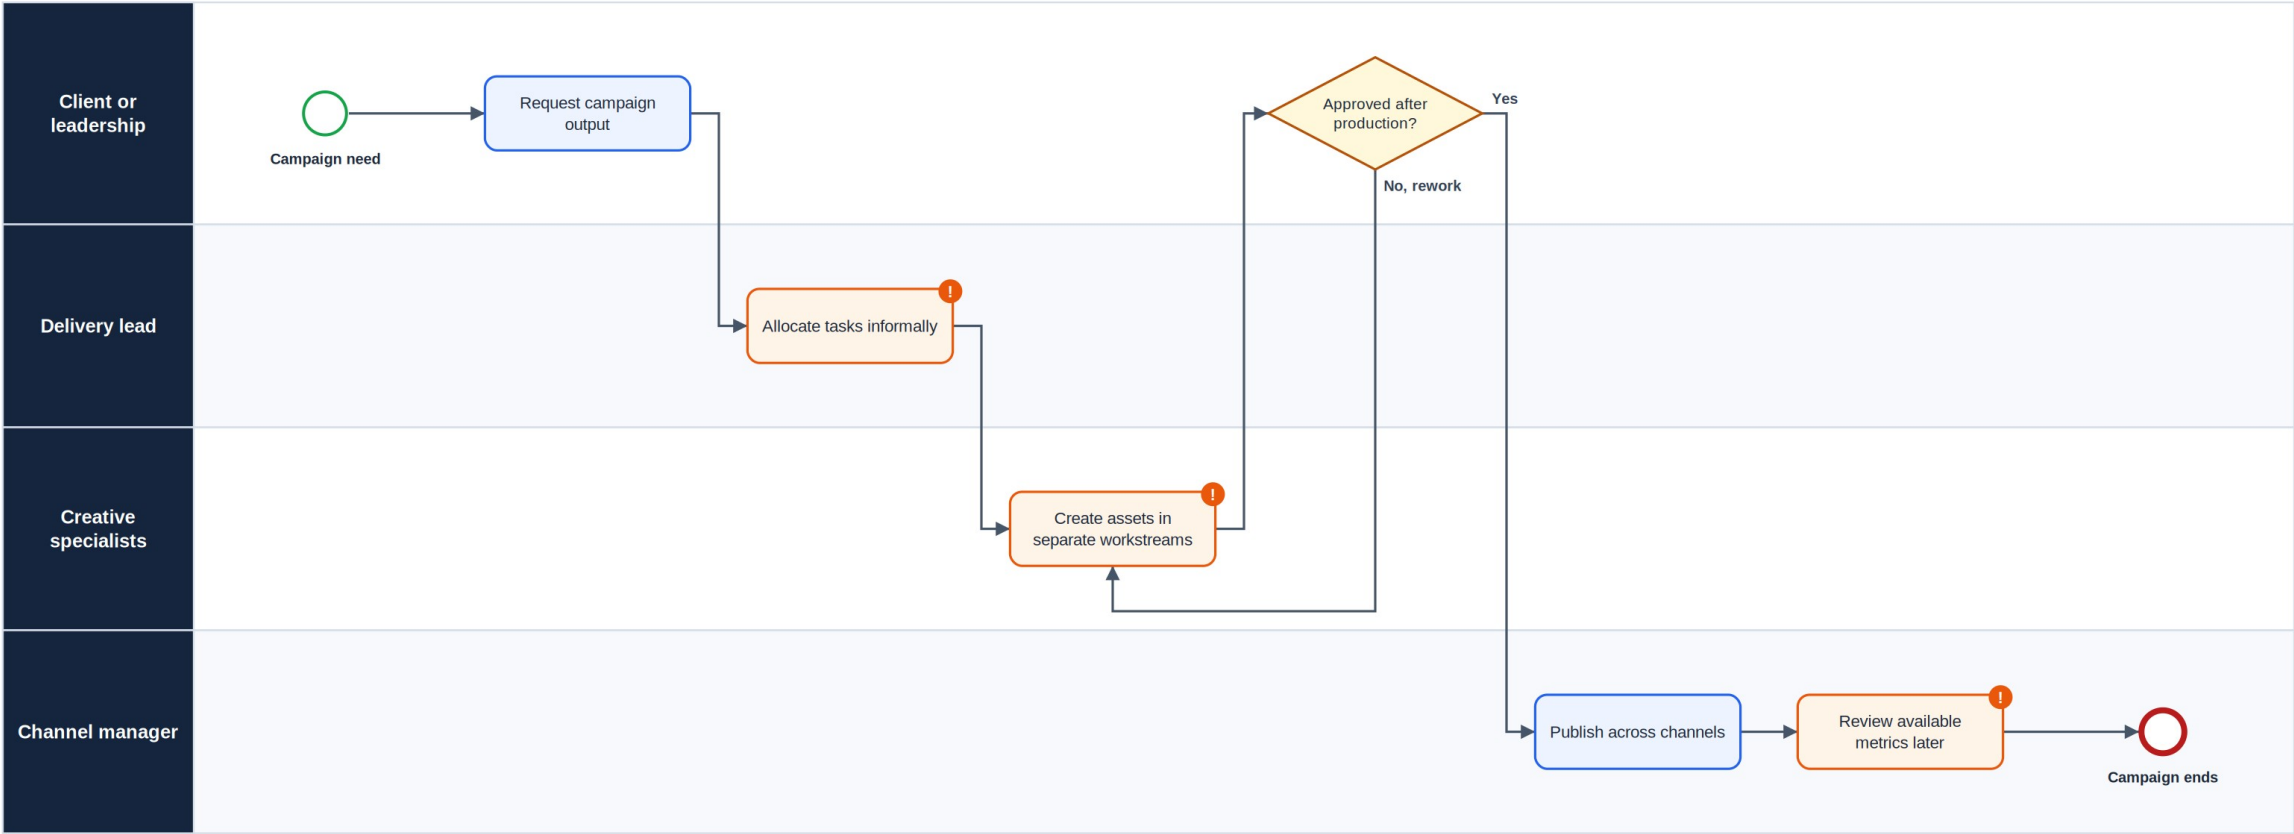

As-Is process

Full-resolution SVG is in the Diagrams folder

Creatrix Empire: As-Is process

Current state before the redesign. Orange activities are the pain points found in discovery.

Creatrix Empire: To-Be process

Redesigned future state, with every decision outcome labelled.

What changed

Area	Before	After
Campaign brief	Requests focused on outputs	Objective, audience and KPI defined first
Team workflow	Ad hoc specialist allocation	Visible ownership, dependencies and approvals
Measurement	Channel metrics reviewed separately	Consolidated reach, engagement, traffic and conversion
Optimisation	Lessons stayed within campaigns	Recommendations shaped targeting, content and SEO

Reported outcomes

Figures reported by the organisation after the changes; underlying commercial data is not published

45%

increase in engagement (reported)

~150%

growth in organic traffic (reported)

Recommendations and key risks

Recommended next actions

- Keep one KPI dictionary across accounts
- Record the decision taken for every recommendation
- Track revision counts to expose briefing gaps
- Review SEO priorities quarterly

Risks with a named owner

R-01

Unclear brief causes rework

Brief approval gate

R-02

Metrics use inconsistent definitions

KPI dictionary

R-03

Late assets delay campaign

Dependency tracking on task board

R-04

Optimisation based on reach alone

Balanced KPI review
