

PRODUCT IN DEVELOPMENT

Taash Tax Automation Service

Guided tax journeys for Nigerian individuals, freelancers and SMEs

Status: In development

Domain: Tax technology and financial services

Role: Founder and Product Business Analyst

The problem and what discovery found

Business problem

Individuals, freelancers and small businesses struggle to identify the right tax route, calculate liability correctly and track filing through to certificate.

What the analysis found

1

Users choose the wrong route because taxpayer types are not distinguished

2

Manual calculations use outdated rules

3

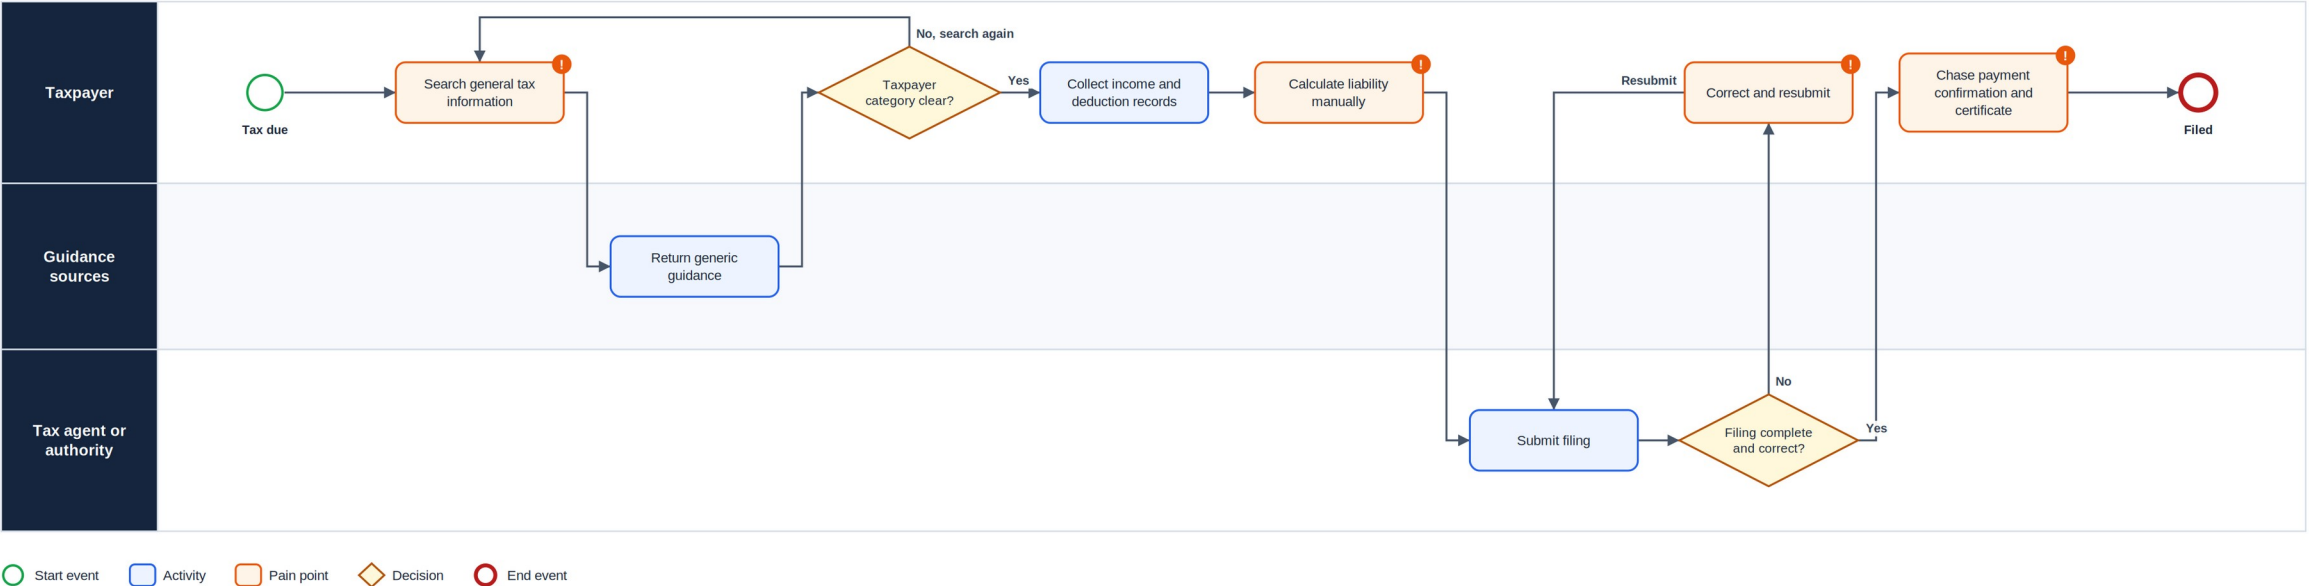

Filing, payment, confirmation and certificate are disconnected steps

As-Is process

Full-resolution SVG is in the Diagrams folder

Taash: As-Is process

Current state before the redesign. Orange activities are the pain points found in discovery.

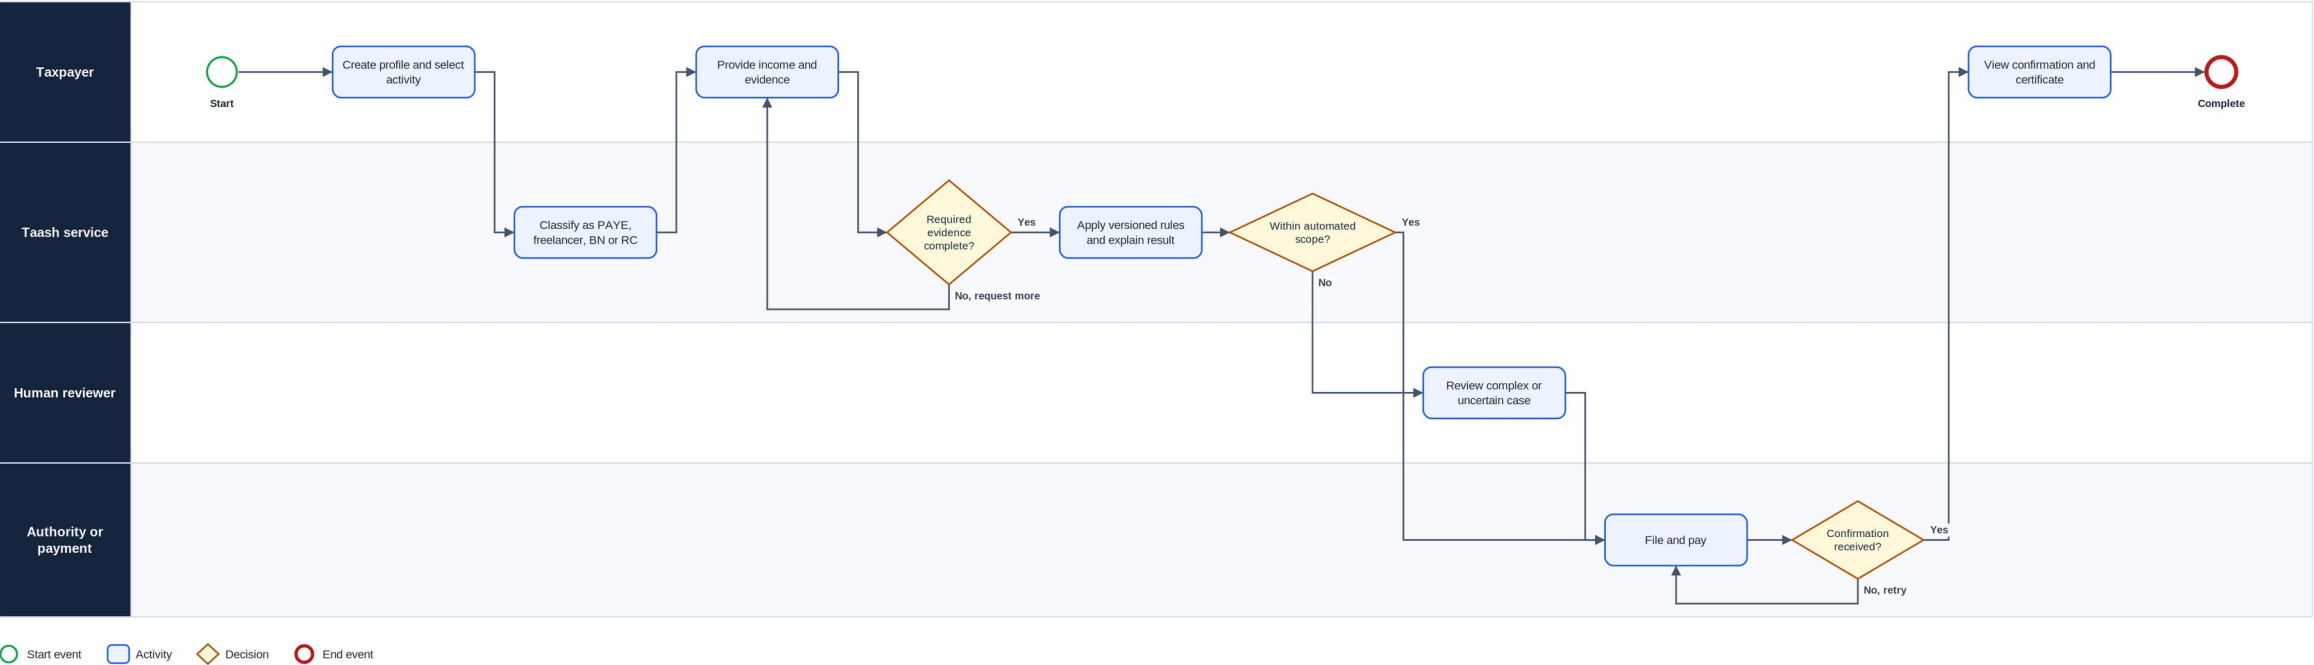

To-Be process

Full-resolution SVG is in the Diagrams folder

Taash: To-Be process

Designed future state, with every decision outcome labelled.

Proposed operating-model change

Area	Before	After
Route selection	User guesses category	Guided classification with confirmation
Calculation	Manual and unexplained	Versioned rules with itemised explanation
Complex cases	No safety net	Human review route
Progress	Stages chased separately	One tracker from filing to certificate

How success will be measured

No live outcomes are claimed for this case

Measure	Current evidence status	How it will be used
Route corrections	Defined, testing with early users	Target fewer than 1 in 20
Reviewer agreement	Defined	Compare results with professional review
Journey completion	Defined	Track by taxpayer type

Recommendations and key risks

Recommended next actions

- Validate rule tables with a tax professional each release
- Test classification with real freelancer scenarios
- Keep scope statements visible on every result
- Track route corrections as the key quality measure

Risks with a named owner

R-01

Rules change after implementation

Versioned tables with effective dates

R-02

Estimate treated as professional advice

Clear scope statement and review route

R-03

Incorrect classification

Confirmation questions and review

R-04

Sensitive data exposure

Least privilege and encryption
