

Communications Plan

Status: Live | Domain: Event technology and payments | Role: Founder, Product Owner and Business Analyst

Approach

Communication is tied to each audience, its decisions and its moments of need, rather than one generic update for everyone.

Communications plan

Audience	Information	Channel	Cadence or trigger
Organisers	New features, fee and payout rules	Dashboard messaging and email	Per release
Buyers	Order, ticket and refund status	Transactional email	Every order event
Door staff	Role, event and scanning steps	Invite email	On invite
Admin and finance	Withdrawals, disputes, email failures	Admin panel alerts	Daily
Developers	Requirements, defects, acceptance criteria	Backlog and code review	Each change

Decision controls

- Record the decision, owner and date
- State the evidence or constraint considered
- Show the impact on requirements, process or release
- Escalate unresolved high-impact items
