

Stakeholder Engagement Plan

Status: Live | Domain: Event technology and payments | Role: Founder, Product Owner and Business Analyst

Engagement objective

Build shared understanding, surface constraints early and keep decision ownership clear throughout delivery.

Stakeholder analysis

Stakeholder	Influence	Interest	Primary interest	Approach
Event organisers	High	High	Payouts, sales visibility, door control	Manage closely
Ticket buyers	Low	High	Fast checkout, instant tickets, refunds	Keep informed
Door and scanning staff	Low	Medium	Simple, fast scanning	Keep informed
Platform admin and finance	High	High	Accurate revenue, withdrawals, disputes	Manage closely
Contract developers	High	Medium	Clear, testable requirements	Keep satisfied
Payment providers	Medium	Low	Correct integration and dispute handling	Monitor

Engagement methods

Stakeholder	What they need to know	Method
Event organisers	Earnings rules, payout timing	Dashboard messages and release notes
Ticket buyers	Order status, refund outcome	Transactional email
Door and scanning staff	Their role and event	Invite email and in-app guidance
Platform admin and finance	Currency totals, pending approvals	Admin panel
Contract developers	Acceptance criteria and priorities	Backlog walkthrough
Payment providers	Webhook and dispute data	Provider dashboards

Principles

- Tailor detail to the audience
- Record decisions and open questions with an owner
- Use visual models to test understanding
- Invite feedback before implementation decisions are fixed
