

Business Requirements Document

Status: Live | Domain: Wellness and hospitality | Role: Digital Product Lead and Business Analyst

Business problem

Bookings arrived through social-media messages with no website funnel, no way to see which service or page produced a booking, no answer for questions outside opening hours and little local search presence.

Objectives

ID	Objective
OBJ-01	Turn website visits into WhatsApp booking conversations
OBJ-02	Measure which pages and buttons produce booking enquiries
OBJ-03	Grow organic visibility for local service searches
OBJ-04	Encourage repeat visits
OBJ-05	Respect visitor consent and platform content policies

Scope

In scope	Out of scope
Multi-page website: services, rooms, pricing, about, contact WhatsApp booking widget and sticky call to action Chat assistant for common questions First-party click and page-view analytics with admin dashboard SEO: metadata, sitemap, structured data and blog Loyalty card and Spin & Win next-visit reward Cookie consent, GA4 and Meta Pixel	Online payment and deposits Calendar booking engine Staff scheduling and payroll Paid-ad campaign management

Business requirements

ID	Requirement	Priority	Objective	Acceptance criterion
BR-01	Every page offers one-tap WhatsApp booking	Must	OBJ-01	A booking button is always visible on mobile and opens WhatsApp with a prefilled message
BR-02	Common questions are answered at any hour	Should	OBJ-01	The assistant answers approved FAQs and hands the visitor to WhatsApp to book
BR-03	Booking clicks and page views are recorded first-party	Must	OBJ-02	Each event stores name, label, page, referrer and session; the admin dashboard filters by range, including today by hour
BR-04	Each service and the location have indexable content	Must	OBJ-03	Sitemap, meta and share tags, structured data and breadcrumbs are present and submitted to Search Console
BR-05	Repeat visits are rewarded	Should	OBJ-04	Loyalty card rules are published and the Spin & Win reward leads to a booking message
BR-06	Third-party tracking loads only after consent	Must	OBJ-05	GA4 and Meta Pixel stay blocked until the visitor accepts
BR-07	Published content complies with search and ad policies	Must	OBJ-05	Each article is reviewed before publishing; non-compliant content is withdrawn

Assumptions and constraints

Assumptions	Constraints
WhatsApp remains the front desk's main booking channel Staff keep the roster and prices current Visitors mostly arrive on mobile	No in-house developer Search and ad policies restrict how some services can be described Staff images need consent before publishing

Key risks

ID	Risk	Severity	Response	Owner
R-01	Content breaches search or ad policy	High	Review before publishing; withdraw non-compliant posts	Digital product lead
R-02	Assistant gives a wrong price or availability	High	Approved content only and handoff to WhatsApp	Digital product lead
R-03	Roster changes leave the site out of date	Medium	One roster list drives every page and prompt	Management
R-04	Declined consent reduces third-party data	Medium	First-party click analytics as the baseline	Digital product lead
R-05	Staff images published without agreement	Medium	Approval before any photo goes live	Management

Delivery timeline

Period	What was delivered
May 2026	Site built: services, VIP rooms, reviews carousel, loyalty card and About timeline
Jun 2026	Full SEO optimisation
Jul 2026	WhatsApp widget and sticky booking button, promo banner, interactive therapist page, chat assistant, blog, click tracking with admin view, GA4, cookie consent and Meta Pixel
Aug 2026	SEO audit fixes, sitelink signals, more guides, page-view tracking and a redesigned analytics dashboard with a Today view, Spin & Win next-visit reward
