Status: Ongoing (2024 to present) | Domain: SME digital services: marketing operations and web development | Role: Business Analyst

Prioritisation basis

Priority reflects business criticality, user impact, risk and the minimum viable service. Could and Won't items are recorded so the scope conversation is visible.

Prioritised scope

Priority	ID	Item	Rationale
Must	BR-01	Each engagement starts with a discovery brief the owner agrees	Needed for agree the business goal and success measure before anything is built
Must	BR-02	Scope is prioritised against the budget	Needed for deliver websites and tools that fit the business's budget and capacity
Must	BR-03	Enquiries from every channel land in one record	Needed for capture every enquiry in one traceable record with a clear next step
Must	BR-05	Websites and campaigns are measurable, with consent	Needed for make marketing and website performance measurable
Must	BR-06	Changes are tested with the owner before go-live	Needed for leave the owner able to run the solution after handover
Should	BR-04	Routine follow-ups are automated	Needed for capture every enquiry in one traceable record with a clear next step
Should	BR-07	Owners can run the solution themselves	Needed for leave the owner able to run the solution after handover
Could	Backlog	Marketing automation journeys by segment	Worth adding once lead volumes justify it
Won't (this phase)	Backlog	Custom-built CRM	Off-the-shelf tools meet the need within budget

Review rule

Reassess priority when scope, risk, dependency or evidence changes.
