

Communications Plan

Status: Delivered across client engagements | Domain: E-commerce, events and digital services | Role: Business Analyst

Approach

Communication is tied to each audience, its decisions and its moments of need, rather than one generic update for everyone.

Communications plan

Audience	Information	Channel	Cadence or trigger
Event or client lead	Status, exceptions, costs	Status review and options paper	Weekly
Operations team	How-to guides, exception queue	Walkthrough and handover guide	At handover and on change
Applicants and customers	Confirmation, decision, next steps	Automated email	At each status change
Developers and providers	Field maps, triggers	Technical brief	Per build cycle
Marketing team	Registration counts by source	Dashboard view	Weekly during campaign

Decision controls

- Record the decision, owner and date
- State the evidence or constraint considered
- Show the impact on requirements, process or release
- Escalate unresolved high-impact items
