

UAT and Validation Plan

Status: Live | Domain: Wellness and hospitality | Role: Business Analyst (Contract)

Approach

Scenarios come from the acceptance criteria. Each defect was logged, fixed and retested before release, and every scenario below maps to a change that is now live.

Test scenarios

Test	Req.	Given	When	Then	Status
UAT-01	BR-01	a mobile visitor on any page	they scroll	the booking button stays visible and opens WhatsApp	Released
UAT-02	BR-02	the spa is closed	a visitor asks about prices	the assistant answers and offers the booking link	Released
UAT-03	BR-03	a visitor taps a booking button	the manager opens Today	the tap appears under that page and hour	Released
UAT-04	BR-04	a new guide is published	the sitemap is regenerated	the URL is listed with a canonical tag	Released
UAT-05	BR-05	a returning visitor	the Spin & Win prompt opens	it can be closed and does not overlap the assistant	Released
UAT-06	BR-06	a first-time visitor	they have not accepted cookies	no GA4 or Meta request is sent	Released
UAT-07	BR-07	an article that breaches policy	it is reviewed	it is withdrawn before or after publishing	Released

Exit criteria

- All Must scenarios pass
- No open high-severity defect on payment, access or privacy
- Business owner confirms the outcome
- Known limitations and follow-up actions recorded
