

MoSCoW Prioritisation

Status: Live | Domain: Event technology and payments | Role: Product Owner and Business Analyst, HunterTV Africa

Prioritisation basis

Priority reflects business criticality, user impact, risk and the minimum viable service. Could and Won't items are recorded so the scope conversation is visible.

Prioritised scope

Priority	ID	Item	Rationale
Must	BR-01	Confirmed payments issue tickets in the same checkout session	Needed for take payment reliably and deliver tickets immediately
Must	BR-02	Revenue, wallet balances and payouts are held and shown per currency	Needed for report revenue, balances and payouts accurately in each currency
Must	BR-03	Gateway refunds cancel the ticket and notify the buyer	Needed for protect buyers, organisers and the platform through refunds, dispute evidence and security
Must	BR-04	Organisers grant event access by role	Needed for control event access through ticket ownership, team roles and scanning
Must	BR-07	Tracking pixels load only after consent	Needed for measure marketing performance only with visitor consent
Must	BR-08	Accounts, content and secrets are protected	Needed for protect buyers, organisers and the platform through refunds, dispute evidence and security
Should	BR-05	Tickets can be sent, transferred and swapped without distorting revenue	Needed for control event access through ticket ownership, team roles and scanning
Should	BR-06	Chargeback evidence is compiled from checkout records	Needed for protect buyers, organisers and the platform through refunds, dispute evidence and security
Could	Backlog	Resale marketplace with price caps	Useful once transfer volumes grow
Won't (this phase)	Backlog	Seat maps and reserved seating	Not needed by current organisers

Review rule

Reassess priority when scope, risk, dependency or evidence changes.
