

# Requirements Traceability Matrix

Status: Concept / MVP design | Domain: SME commerce and retail technology | Role: Product Business Analyst

## Purpose

Shows the chain from business objective to requirement, design, user story and test, so every requirement has a reason to exist and a way to prove it works.

## Traceability

| Objective                                       | Business requirement                                   | Functional req. | User stories | Test   | Test status |
|-------------------------------------------------|--------------------------------------------------------|-----------------|--------------|--------|-------------|
| OBJ-01: Create one product and inventory source | BR-01: Maintain one product and inventory record       | FR-01           | None         | UAT-01 | Planned     |
| OBJ-02: Connect selected selling channels       | BR-02: Publish products to selected channels           | FR-02           | None         | UAT-02 | Planned     |
| OBJ-01: Create one product and inventory source | BR-03: Prevent sale of unavailable stock               | FR-03           | US-01        | UAT-03 | Planned     |
| OBJ-03: Give every order a clear status         | BR-04: Every order has status and a next action        | FR-04           | US-02        | UAT-04 | Planned     |
| OBJ-04: Make setup usable for SMEs              | BR-05: Guided setup for payment and delivery providers | FR-05           | None         | UAT-05 | Planned     |

Scenarios are defined to validate the MVP; none have been run.
