

Communications Plan

Status: Concept / MVP design | Domain: ESG, compliance and sustainability technology | Role: Product Business Analyst

Approach

Communication is tied to each audience, its decisions and its moments of need, rather than one generic update for everyone.

Communications plan

Audience	Information	Channel	Cadence or trigger
SME operators	What to capture and when	In-app checklist	Per reporting period
Auditors	Source links, approval trail	Auditor walkthrough	At audit
Investors and buyers	Approved summaries	Shared report view	Quarterly
Framework specialists	Framework changes	Mapping review	On framework update
Data protection and security	Data flows, retention	DPIA review	Before launch

Decision controls

- Record the decision, owner and date
- State the evidence or constraint considered
- Show the impact on requirements, process or release
- Escalate unresolved high-impact items
