

MoSCoW Prioritisation

Status: Generalised operational analysis | Domain: Healthcare support services | Role: Facilities and quality support

Prioritisation basis

Priority reflects business criticality, user impact, risk and the minimum viable service. Could and Won't items are recorded so the scope conversation is visible.

Prioritised scope

Priority	ID	Item	Rationale
Must	BR-01	Requests record location, timing and impact	Needed for record service requests accurately
Must	BR-02	Safety and infection risks are prioritised immediately	Needed for prioritise by safety impact and urgency
Must	BR-03	Access and resource constraints have a named owner	Needed for escalate constraints through a named route
Should	BR-04	Closure evidence is retained	Needed for record service requests accurately
Should	BR-05	Recurring issues can be identified	Needed for use recurrence evidence for corrective action
Could	Backlog	QR-code requests from each room	Improves location accuracy

Review rule

Reassess priority when scope, risk, dependency or evidence changes.
